MBE / WBE:

This contract will be awarded in compliance with City Code Chapter 2-9C (Minority-Owned and Women-Owned Business Enterprise Procurement Program). No subcontracting opportunities were identified; therefore, no goals were established for this contract.

Additional Backup Information

This contract will provide specialized maintenance services for inspections, repairs, modifications, and upgrades of large electric motors at Austin Energy power plants. These services include planned and emergency maintenance. The pool of contractors will furnish the labor and supervision, equipment, tools, parts, and supplies necessary to support maintenance and overhaul of electric motors. Multiple contractors are needed to assure timely response and expertise. Contractors will submit a work plan, schedule, and pricing for individual projects, and the contractor who is offering the lowest price and is available to perform on the required timeline will be awarded the work for such projects.

An Austin Energy evaluation team with expertise in this area evaluated the proposals and unanimously chose these proposals as the best to provide these services. Evaluation criteria used to evaluate the proposals include concept and program to accomplish work, organizational experience, personnel qualifications, and total evaluated cost.
